

Posting for a Robotics/STEM teacher for Collingwood School

Collingwood School, a progressive co-ed independent day school in West Vancouver, is seeking a full time robotics and STEM/Robotics teacher at our Grade 8-12 campus.

Ideally, the successful candidate will be an experienced, flexible, technologically proficient, dynamic, collaborative, and inspirational educator who is looking to become a part of a vibrant teaching and learning community. This highly motivated individual will be responsible for growing and leading our robotics program.

The following assets and qualifications are desirable:

- B.Ed in secondary education
- Undergraduate degree in Science or Engineering
- Knowledge of, or desire to learn immediately, the RobotC programming language and robot construction with VEX EDR components.
- Experience teaching multimedia or design courses
- Excellent management, organizational, interpersonal and relationship skills
- Excellent oral, written, communication and presentation skills
- Ability to build collaborative and effective relationships with students, staff, parents and the community

Potential candidates must be certified, or be in the process of becoming certified, by the British Columbia Ministry of Education Teacher Regulation Branch. Letters of application, accompanied by a resume, and the names of two referees, **MUST** be received by May 18, 2017.

To apply to this job, register or log into your account at <http://collingwood.simplification.com>. Do a job search, click on the job you are interested in, and click the apply button. You will receive a confirmation email and the job will be listed in your 'job application log' once you have applied successfully. If you have any questions re: Simplification call 1-877-900-5627.
